www.CubitsOrganics.com

Hello. I'm Laura Watt, entrepreneur & fine-artist-turned-farmer.

Between posting pixels and planting purple carrots, I am the owner of the organic seed company, Cubit's. As an author and photographer of the blog, cubitsorganics. com, I love to share my appetite for local food, ethical food production, organic gardening and whole foods cooking. As a mother to a young family, I consider every meal a miracle.
